

Shinichi UEDA
UIP PATENT AGENCY

info@u-ip.jp

Mr. Shinichi UEDA is a founder of UIP PATENT AGENCY, based out of Tokyo, JAPAN. He is one of the most experienced IP practitioners in the field of electrical technology, with a particular focus in software and commutation technology, especially for startup companies. He counsels clients regarding IP matters, ranging from R&D strategy, prosecution and litigation matters relating to patents, design, trademark and technology related unfair competition.

Before joining practice, he had an over ten years' experience as a modem software engineer for mobile phones at a leading Japanese electrical company. Such experience aids him in communicating with engineers and inventors involved in R&D activities.

He also plays important roles in the committee dealing with international activities at the Japanese Patent Attorney Association, and belongs to a study group of international policy, with a focus on the Patent Cooperation Treaty and the Patent Law Treaty.

Admission: Japan Patent Attorneys Association (2012)
Qualified as a Litigating Patent Attorney (2017)

Profile: Waseda University (M.S., Electrical Engineering, 2002)

Practice Area: Electrical Engineering

Memberships: Japan Patent Attorneys Association (JPAA)
AIPPI (Association Internationale pour la Protection de la Propriete
Intellectuelle)
